**How to create your short recording in 3 easy steps:
You are going to make and record a short song,
tune or sound about something that you love.
Keep your idea short and simple.**

1.

Think of something you really love. Here are some ideas to get you started:

2.

Choose one or two of these and think about why you love it.

Maybe it makes you feel happy or makes you laugh?

Write down a few words or lines about it.

You can make your words rhyme but you don't have to.

You can repeat lines too, which is often done in songs:

Speak your words out loud a few times until you are happy with them.

You will start to hear the rhythm of the words. Is your *Love Song* fast, slow or medium speed?

3.

Now, hum a tune to go with the words.

It is fun and easy to make up your own tune so give it a try!

Put your words and tune together and practice it a few times.

You can also make your words into a rap or a simple chant if you prefer.

If you play an instrument, you can use it to play your *Love Song* too.

Remember, it needs to be short – a *Love Song* that is about 30 seconds long is perfect.

When you are ready, ask a grown up to record your *Love Song* on their phone.

He/she can send it to us using <https://form.jotform.com/201335359707052>

**THANK YOU FOR TAKING PART.
